: LOCHSUCK/Transmittal of Project Analysis

ACTION REQUIRED: None

1. Transmitted under separate ^{cover} are pertinent portions of an analysis of Project LOCHSUCK prepared by this Division's evaluation staff. The main body of the analysis will not be transmitted because it consists largely of a historical review and content analysis which presents complex sterilization problems. We wish to point out, however, that the main body of the analysis is not generally derogatory and indicates the high operational capabilities of LOCHSUCK.

2. The portions of the analysis which are being transmitted indicate the weaknesses of LOCHSUCK. We feel that they are of more immediate interest to the field.
